Derrick Screen Rubber Seal

Model 3660-02-30 frame protector is suitable for Derrick FLC2000 mud vibrating screens. As a key wear-resistant part, it effectively protects the screen from damage caused by vibration and abrasive drilling fluids.

Features

Structural protection: Resists wear & impact on shaker guards and side supports from solids and movement.

Vibration damping: Absorbs shaker vibration, reduces wear, extends service life.

Noise reduction: Cushions metal contacts to

Derrick Screen Rubber Seal

Derrick Shaker Support

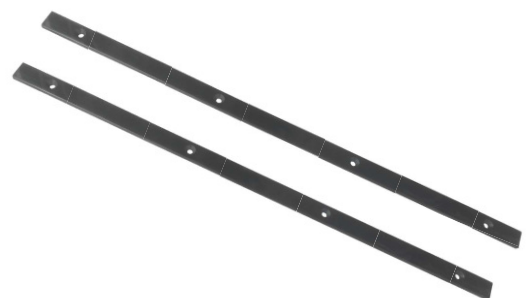

Derrick side support (Part No. 6417-01) and cross support are core structural components of Derrick vibrating screens, delivering essential support and stability to screen panels under high-vibration oilfield operations.

Features

Precision engineering: Perfect fit for Derrick equipment to ensure reliable performance

Material: Engineered to withstand harsh oilfield conditions

Warranty compliance: Maintains equipment warranty coverage

Derrick Shaker Side Support

Xi'an Tianrui Petroleum Machinery Equipment Co., Ltd., established in 2010, is a modern manufacturer of solids control equipment certified to both API Q1 and ISO 9001 standards.
