Rig Mat

Introduction

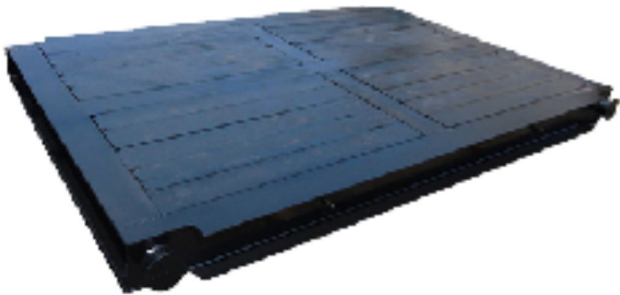

The TRGM series steel-wood foundation (also known as Rig mat) is a new type of drilling foundation developed by Tianrui for wellsite applications. It replaces traditional concrete foundations, greatly reducing drilling costs, saving land use and improving on-site management.

Advantages of TR Rig Mat

This product features high strength, strong load-bearing capacity, good interchangeability, convenient transportation, low cost and efficient installation.

Scope of Application

Suitable for ZJ20, ZJ30, ZJ40, ZJ50, ZJ70 drilling rigs, for drilling depths of 1000~7000 m in plains, plateaus, deserts, hills, beaches and swamps.
