Swaco Shaker Angle Adjustment

Angle adjustment 9675294 is designed for Swaco MONGOOSE PRO/PT shale shakers. It optimizes solid control performance and screen life, made of stainless steel for durability.

Features

Precise adjustment: Fine-tunes angle for efficient solids separation

Anti-vibration: Ratchet ensures stable angle under vibration

Durable: Rugged for harsh oilfield environments

Economical: Manual operation, no hydraulics or power

Swaco shale shaker wedge block

Wedge block 5895001 is a key part for mud shale shakers, used to fasten screens to the shaker frame. It provides tension to hold screens firmly, enabling quick screen changes while maintaining equipment integrity.

Features

Screen fastening: Secures pre-tensioned screens firmly to the shaker basket

Tensioning: Wedges tightly between screen edge and frame support

Quick change: Replaces screen within 2 minutes

Swaco Shaker Height Adjustment

Swaco Parts

Swaco Shale Shaker Springs

SWACO springs are key to improving shaker efficiency. The 9360007 spring, designed specifically for Mongoose shakers, is well-regarded for its performance and durability.

Made of high-grade materials, 9360007 is engineered to withstand vibration and stress in drilling operations, offering long service life, less frequent replacement and minimal downtime.

It is mainly used in shale shakers for oil and gas drilling. Mongoose shakers fitted with this spring separate drill cuttings from drilling fluid, saving resources and boosting overall drilling efficiency.

Swaco Shale Shaker Springs

SWACO Shale Shaker Spring Mount

SWACO spring mount BM6K80290 is a key component for mud shale shaker efficiency, specially designed for Mongoose shakers.

Made of high-quality materials, it is built to withstand vibration and stress in drilling operations, ensuring long service life.

Features

Xi'an Tianrui Solid Control adopts advanced mechanized production to make replacement parts for Swaco MONGOOSE series shale shakers. All products comply with API standards and hold API certification.

SWACO Shale Shaker Spring Mount

Swaco Parts

SWACO Shale Shaker Rubber Strip

SWACO rubber strip 5837001 is a key rubber part for M-1 SWACO Mongoose shale shakers, sealing between the screen frame and shaker basket. It prevents mud leakage and reduces vibration damage to the frame and shaker structure.

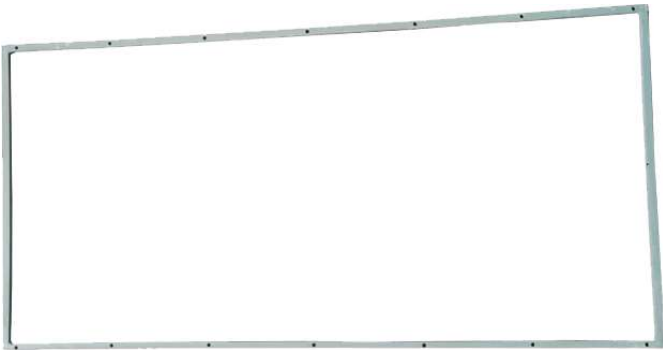

SWACO Shale Shaker Rubber Strip

SWACO Rubber Frame Bead

SWACO rubber frame bead 9671640 is a component for Mongoose shakers. Its rugged structure withstands vibration without damage. Made of wear-resistant premium material, it is easy to install and replace.

SWACO Rubber Frame Bead

SWACO Shale Shaker Nylon Pin

Nylon pin 07-443 is a key component in shale shakers, used to connect and support the screen for stable and efficient screening. In SWACO shakers, it fastens the screen to the frame, ensuring stability and accuracy under vibration. Its design and material enable it to withstand high-frequency vibration and heavy loads.

SWACO Shale Shaker Nylon Pin

Xi'an Tianrui Petroleum Machinery Equipment Co., Ltd., established in 2010, is a modern manufacturer of solids control equipment certified to both API Q1 and ISO 9001 standards.
